

## **Plant Variety Protection (PVP)**

It is becoming increasingly important that seed producers understand and adhere to the federal Plant Variety Protection Act (PVPA)

The PVPA was signed into law on December 24, 1970. The law provides that the developer of a new distinct variety may obtain property rights protection for that variety provided the variety meets the requirements of the PVPA. A Certificate of Protection is valid for 20 years and excludes others from selling, offering for sale, reproducing, importing, exporting, or using the protected variety in the production of a hybrid or different variety during this time without the permission of the owner. The owner is responsible for enforcing these rights.

Two options for plant variety protection are available to the developer of a variety. Under the first option (PVP only), the developer of the variety may sell either certified or uncertified seed of the variety. A grower cannot produce or sell seed of a protected variety without the permission of the developer. If the developer of the variety has reason to believe that anyone is infringing on the protected rights, the developer may resort to civil action.

The second option ("certification option"), utilizes the provision of Title V of the Federal Seed Act. This option requires that any seed produced of a Title V variety must be grown under a certification program. A variety protected in this manner may be sold by variety name only as a class of certified seed. Violators of this option face prosecution by both federal and state governments, as well as any civil action brought by the variety owner.

It is the responsibility of the seller to inform the buyer if the variety is protected. Each container of seed sold should be labeled with a tag indicating the type of protection which the owner has. Under the first option, the label will state: "U.S. Protected Variety- Unauthorized Propagation Prohibited." Under the second option, the label will state: "U.S. Protected Variety- Unauthorized Propagation Prohibited- To Be Sold by Variety Name Only as a Class of Certified Seed."

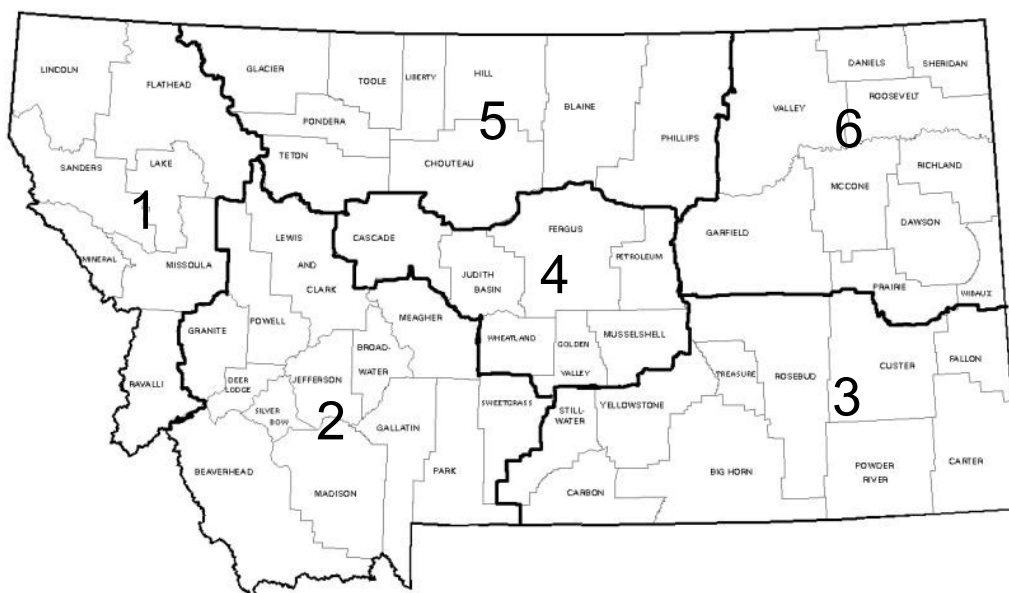

A complete listing of all government protected varieties may be obtained from the agency's website:

<http://www.ars-grin.gov/cgi-bin/npgs/html/pvplist.pl>

The Plant Variety Protection homepage is located at:

# MSGA 2019 All Crop Directory

This publication contains the names of growers and/or seed contractors who are producers and/ or contractors of Registered or Certified classes of seed for the varieties listed during 2019. As of October 10, 2019, the date of this publication, fields listed are in the process of being inspected. Some may be completely or partially cancelled or rejected. The final grade for all classes of seed will be dependent upon a satisfactory laboratory analysis of seed lots. Certification standards must be met before certification is completed and tags issued. Certification is void unless a certification tag or Montana Bulk Seed Sale Certificate accompanies the seed.

# Certification Fees

*The following fee schedule is subject to periodic revision*

*As of (February 2018)*

1. **Filing fees-** The following fees must accompany the Application for Certification when submitted to the MSGA office.

a. **Annual Filing Fee:** Payable with each application \$30.00/application

b. **Acreage Fees:** Acreage fees will be refunded on acreage canceled before field inspection.

**All Crops:** \$2.50/acre

**With Exception of:**

Hybrid Canola	\$6.00/ acre
Field Beans	\$6.00/acre
Industrial Hemp	TBD

**Applications for Certification of pulse and perennial crops** are due May 25th. Applications post marked after May 25th will be assessed a \$50.00 late fee, and if post marked after June 15<sup>th</sup> will receive a \$100.00 late fee.

**Applications for Certification of all other crops** are due June 15<sup>th</sup>. Applications post marked after June 15<sup>th</sup> will be assessed a \$50.00 late fee, and if post marked after July 1<sup>st</sup> will receive a \$100.00 late fee.

2. **Production Fees-** Production fees are due and payable within 30 days after harvest. It is the grower's responsibility to assure that all fees are paid. Production fees are based on all production from the acreage which passes field inspection. This includes seed which is marketed or retained by the grower for the grower's own use. Unpaid production fees on a previous certified variety are a basis for refusal to certify. **Production fees are due on all crops, including those which passed field inspection but did not pass mechanical analysis or were not carried through certification beyond field inspection.**

All fees should be calculated on a clean seed basis. To determine "clean seed" production on an un-cleaned lot, deduct 10% (average cleanout) from total un-cleaned production. For the respective classes of seed meeting the minimum standards, production fees are as follows.

Wheat-Flax-Spelt-Triticale	\$0.05/bu on clean seed
Barley-Oats-Buckwheat-Large Seeded Legumes	\$0.08/cwt on clean seed
Oil Seed Types	\$0.12/cwt on clean seed
Sorghum	\$0.05/bu on clean seed

## Perennial Crops

All grass varieties	\$0.005/lb. on clean seed
Perennial Legume crops	\$0.005/lb. on clean seed
Fourwing Saltbush	\$0.005/lb. on clean seed
Small Burnet	\$0.005/lb. on clean seed
Sunflowers-Foundation and Certified Class	\$0.25/cwt on clean seed
Seed not eligible for certification	\$0.10/cwt on clean seed

Field Beans- No production fees are due on bean seed production

# Certified Seed Doesn't Cost...

# It Pays!

## ▲ PROVEN QUALITY

- High germination
- Fewer weed seeds
- Less inert matter
- Less seed-borne disease
- Known varieties

## ▲ SUPERIOR PERFORMANCE

- Better plantability
- Rapid stand establishment
- More uniform maturity
- Easier harvest
- Less dockage

## ▲ GREATER PROFITABILITY

- Newest genetics
- Less weed control costs
- Less disease control costs
- Greater yield per acre
- More return on your investment

**CERTIFIED SEED**
